

A Memorandum of Agreement (MOA) was signed in July 2009 between the Prior Provincial of the Augustinian Order and the officers of the CSN Alumni Association on the latter's plan to donate 5 to 10 hectares as new school site for the Basic Education Department and specifically, the restoration of the high school department which would serve as their legacy to their Alma Mater. The MOA states the conditions on how the expansion is to be undertaken together with the rebranding of the school as "Colegio del Santo Niño-Augustinians" and later the establishment of other departments like pre-school, grade school and college. The expansion of having another campus is a great welcome move, especially to parents who really want their children to continue acquiring the Augustinian way of education. The whole family of CSN is indeed very much eager to have this realized in the near future. Any assistance is therefore a big contribution to make this dream into a reality. Below is the perspective drawing of the "Colegio del Santo Niño-Augustinians."
